PETITION TO PRIME MINISTER JUSTIN TRUDEAU

We, the undersigned, citizens and residents of Canada draw the attention of the Right Honourable Justin Trudeau to the following:

Whereas:

- Section 2 of the *Canadian Charter of Rights and Freedoms* identifies, among other things, freedom of conscience, freedom of thought and freedom of belief as 'fundamental freedoms';
- The Government of Canada must defend the rights of all Canadians regardless of whether the current Liberal Government agrees with specific views held by individual Canadians; and
- We believe the current Liberal Government's proposed attestation requiring Canada Summer Jobs Program applicants to hold the same views as the Government would contravene the *Canadian Charter of Rights and Freedoms*.

Therefore, your petitioners call upon Prime Minister Justin Trudeau to defend the freedoms of conscience, thought and belief and withdraw the attestation requirement for applicants to the Canada Summer Jobs Program.
